

HT5 Stair Sander and Edger

The HT5 is a powerful and versatile tool in a light weight package. It's ideal for the following hardwood sanding applications:

- Stair risers
- Stair treads
- Wall lines
- Tight spaces with limited access

Features

- Rotating handle for stair riser sanding
- Skid plate design for tread sanding
- Caster wheel attachment for edging
- Powerful integrated LED light strip
- Low profile nose reaches under toe kicks
- Designed for use with dust collection vacuums
- Reinforced Nylon construction for extreme durability in a light weight package

Recommended Products

HireTech floor sander abrasives are a high quality range of silicon carbide and aluminium oxide, resin bonded, coated abrasives designed for optimal performance with all HireTech floor sanders.
